

COVID GREEN at Ken Val Rehab

Effective August 3, 2021

Our main entrance is our main entrance 😊! Carol is happy to again greet everyone when you arrive!

Rapid Covid-19 Testing on all members of our team done weekly.

Client Self Screening Questions are posted at our main entrance for you to review. A member of our team will confirm that have reviewed them and are able to enter the Clinic.

Mask Guidelines: Fully vaccinated clients & team members are required to wear a mask only when 6ft distancing guidelines cannot be maintained.

Clients not fully vaccinated are required to wear a mask at all times, regardless of distancing.

Physical Distancing is still required. Signage is posted and you may be asked to maintain this distancing when in common spaces with others.

We are continuing with our Covid scheduling process, staggering our Therapists' appointment times to continue to manage numbers of people in the clinic at one time.

Please arrive at the Clinic just on time for your scheduled appointment.

Physical Barriers will remain up between our Treatment Cubicles and at Reception.

Enhanced Cleaning protocols continue as they were during the Pandemic.

Payments: Non-contact payment methods continue to be preferred. However, cash payments are again accepted with the request that clients have on hand as close to exact change as possible to minimize contact.
